Frankel saves the best for last

In maintaining his unbeaten record, Frankel, the world's highest rated racehorse posted a fastest sectional time of 11.05 seconds and recorded a top speed of 40.73 mph in today's Juddmonte International Stakes at York.

Sectional Timing And Tracking data captured by TurfTrax shows that unlike his previous victories in QIPCO British Champions Series races at Ascot and Goodwood, his most sustained burst of speed was delivered in the final three furlongs of the race.

Mike Maher, Managing Director of TurfTrax said, "The STATS appear to suggest that Tom Queally was able to conserve some of Frankel's energy in the first part of the race to enable him to deliver such a devastating finish.

"Any doubts that he would stay the extra two furlongs have been dispelled by today's performance and perhaps the question now is just how far could he go?"

STATS data for all races at the York Ebor Festival will be available at www.turftrax.co.uk and STATS for QIPCO British Champions Series races can be downloaded at www.britishchampionsseries.com.
