

TurfTrax STATS at Royal Ascot 2012

Sectional times were successfully recorded for five of today's six races including the 150th Anniversary of The Prince of Wales's Stakes, Wednesday's QIPCO British Champions Series feature.

It is hoped that with further post-event analysis STATS will also be made available for the Royal Hunt Cup.

TurfTrax Managing Director, Mike Maher said, 'Immediately after racing on Tuesday we reviewed our deployment and at the first opportunity this morning we altered the position of some reference transmitters towards the West end of the Grandstand.

'The result was a much better day for the Sectional Timing and Tracking System and we have already published post-race data for the feature race on the QIPCO British Champions Series website and distributed to media'
